Reasons for allowance

1. Claims 21-38 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include Applicant's Terminal Disclamers, and a first plate, and L-shape second plate, and a positioning device that can create relative movement between the first and second plate (claim 21), a C-shape first plat, a second plate, and a positioning device that can create relative movement between the first and second plate (claim 27), a first plate, a second plate that is shaped essentially as a rectangular with a segment removed to allow an optical beam pass therethrough (claim 32), as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The application having been allowed, formal drawings are required in response to this Office Action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Dallakian (6198580) is cited for disclosing similar with the claim subject matter.
